Dr. Joshua Lederberg
Department of Genetics
University of Wisconsin
Madison, Wisconsin.

Dear Dr. Lederberg:

I am a graduate student in Microbiology with Dr. W.G. Hutchinson at the University of Pennsylvania. In connection with my work I should like to ask you whether it would be possible to get some cultures of the complementary mating types of *Escherichia coli* K-12 from your laboratories. I would be very thankful to you.

My father, Dr. Richard Kuhn from Heidelberg, is at present here in the United States and sends his best regards to you.

Sincerely yours,

Daisy Kuhn.
